

COVID19 UPDATE

Proactive ... Reliable ... Stable

Like everyone else, Aluminium Die Casting SRL has had to adapt to the constantly changing circumstances of the COVID-19 pandemic. Through a combination of hygiene, flexibility and communication – Aluminium Die Casting SRL will continue to go above and beyond to proactively meet the expectations of suppliers and customers.

Distancing rules and provision of sanitary equipment has ensured that the Aluminium Die Casting SRL team has continued to produce high quality products throughout the pandemic. By exceeding the hygiene standards set out by local government authorities, the health of employees has been protected through these difficult times.

These stringent measures also affect the market and customers, leading to clients choosing Aluminium Die Casting SRL as other suppliers face difficulties. An innate flexibility has allowed Aluminium Die Casting SRL to continue to provide quality castings, technical expertise and reliable delivery despite new challenges. Providing reassurance through proactive communication to both customers and suppliers, the business has proven its ability to provide a stable service in challenging circumstances.

Due to the proactive implementation of measures, it has been possible to keep the Aluminium Die Casting SRL team running throughout the pandemic. A proven supplier ready for difficult times, Aluminium Die Casting SRL has the capability to master any further challenges the future may hold - delivering a reliable, dependable service to suppliers and customers alike.

Our team is ready to help you – stay safe!
